Append & Prepend Methods in jQuery

append() Method

The append() method inserts specified content at the end of the selected elements.

```
$("button").click(function(){
  $("p").append("<b>Appended text</b>");
});
```

Prepend() Method

The prepend() method inserts specified content at the beginning of the selected elements.

Insert content at the beginning of all <p> elements:

```
$("button").click(function(){
  $("p").prepend("<b>Prepended text</b>");
});
```
